

Dear Montana CTE Teachers,

We are CTE! This truly is a great time to be a CTE educator in Montana and Montana ACTE wants all CTE educators to know just how important the jobs they are doing truly are to the students across Big Sky Country. I am excited and honored to have the opportunity to serve as the Montana ACTE President this year.

Our organization is full of individuals who are dedicated to Montana students. Proof of this was displayed at the Region V Leadership Conference in San Diego, CA a few weeks ago, where Chad Eichenlaub of St. Regis High School was named Region V New Teacher of the Year, and Tina Boone from Billings Skyview High School was named the Region V Counselor of the Year. To top it off, Montana ACTE was awarded the Newsletter of the Year along with Advocacy of the Year Award for the creation of the “Fast Track to Your Career” posters that have been distributed across the state. Each Montana ACTE member should be proud of the success our organization has had and continue to look for way to spotlight the great things we are doing to make Montana students successful.

The Montana ACTE Board of Directors is working hard to organize our Fall Institute. Working hand-in-hand with National ACTE, Montana OPI, The Office of the Commissioner for Higher Education, the board is putting together an institute schedule that won't disappoint. As our fall institute approaches closer, I would like to ask everyone to consider stepping into a leadership role. Whether it would be running for a position on the Montana ACTE board or a position within your division, become involved and show how, “We are CTE”.

I hope to see everyone in Bozeman this fall!

Sincerely,  
Scott Anderson  
Montana ACTE President
