Keynote Speaker—Joe Walkuski

Joe Walkuski is the CEO at TEXbase, a leading provider of web-based compliance, quality and materials management software solutions for the apparel, footwear and consumer products located in Bozeman, MT. TEXbase is a pioneer in web-based business solutions and collaboration platforms that unite brands, retailers, suppliers and testing labs, provides benefits that span the full product development and supply chain continuum, from product concept to regulatory compliance.

Today's textile and apparel industry represents an exciting career opportunity for our students. Despite the effects of globalization and regulation over the past 30 years, today's consumer brands are innovating at a rapid pace and building supply chains to deliver exciting new products that are both environmentally sound and ethically driven. While the disciplines required to be successful in apparel have both morphed and expanded, the consumer remains the ultimate beneficiary of the truly rewarding experiences of industry professionals striving to bring new products to market in an ever changing manufacturing and retail environment. We'll explore a bit of history to understand where we are today and focus on specific opportunities that exist for students who choose a career in the "rag trade".

-Joe Walkuski
